NEW AGE ENGINE TECHNOLOGY

The all-new, world-class 1.4ℓ SAFIRE MPFI petrol engine sets the standard that others follow.

Up front a stiffer front suspension sub-frame with strut mounted anti-roll bar keeps the wheels firmly on the road as the power rolls out. At the rear the all-new semi-independent twist beam suspension with gas-charged dampers ensures brilliant torsional stability.

Fourteen inch tubeless tires and a steering column specially designed to minimise vibration enhance the driving experience.

All these features combine to minimise interior noise whilst delivering superlative ride quality.

The Indica Vista Ego is an acknowledged leader in its class - defeating all newcomers on performance, features, price and styling.
